Already met the university language requirement for ITAs?

Students who have achieved a score of 50 or higher on the MSU Speaking Test or met the university oral proficiency requirement for ITAs in another way† may be interested in AAE 453, a seminar-style course designed to support international graduate teaching assistants in their first few semesters of teaching.

†Students who receive full or conditional teaching waivers by appeal may also be eligible to take this course depending on their teaching assignment.

AAE 453

Support for In-Service Teaching TBD

Students in this seminar-style course discuss topics such as the language of classroom management, fielding questions, handling student difficulties, etc. Students bring their own experiences of teaching in English at MSU to group discussions where we explore together how language may be facilitating or hindering the learning environment they seek to establish for their students.

Note: AAE 453 meets once per week at a time to be determined based on student and instructor availability.
